Assessor Comments	A nice line of Angus Heifers that present prospective buyers with a great opportunity. Vendor has repeatedly bought great quality Sparta Angus bulls, and these heifers show the breeding that has gone into them. These heifers have come out of a tough summer with limited feed. Due to the excessive dust, a fair percentage of heifers contracted pinkeye. Despite their set backs with eye trouble, heifers should continue to move forward nicely, granted they are given the opportunity. Again not all heifers have eye defects and are sound quality heifers that are simply in need of more feed. Please note, the eye scarring is old and not detrimental to the heifer as it is only in one eye and there is still vision, refer photos.
