	Quiet: 107 head		Quiet: 105 head Slightly Stirry: 2 head		Temperament not assessed in Paddock	
Handled With	Easy cattle to handle, the odd one played up in the crush but nothing unusual there. Overall well handled cattle.					
	Bikes , On foot , Vehicles					

Notable Traits

Traits

- 1 Head Old vaccination lump on the shoulder.
2 Head Small patch of white on the flank.

Assessor Comments

Very good quality weaner steers from one of the better herds in this district. Will make Ideal feeder steers with all the attributes and breeding to perform on grain or grass. These steers present in fresh condition and have had no set backs. This is the lead of 240 steers, NOTE Steers were weaned at assessment after a 12 hour curfew, we have allowed a further 4% to compensate for any additional weight loss due to the weaning process. This herd has undergone a heavy culling regime in the last few years and that shows through in these steers. There is another two local district lots in this sale as well.
