These Heifers have a tendency to run when first put in the yards. A few did take a bit to settle and were trying to get away from you. One just did not want to settle at all, to be fair we ran them in and started the assessing process straight away. Once assessed and back in the mob all bar one did settle. The odd one played up in the crush , nothing unusual there. Overall Heifers that are easy handled by experienced operators.

Assessor Comments

A tidy line of well bred NSM Millah Murrah blood Heifers that are the ideal weight and condition to join, alternatively they will go forward on grain or grass. As you can see by the videos they have the frame , conformation and muscle pattern you would expect from the Millah Murrah blood lines. Heifer that would make for front paddock cows. The breeder has selected bulls on type not price and this shows through. Two have slightly cloudy eyes from old pink eye, nothing recent and nor does it impede their sight. There is another lot of Steers also in this sale, as well as another local district lot. Inspections prior to sale welcome.
