Vendor Comments

Would normally retain and sell later in the year but the season has forced us to keep only 13 of our heifers and also sell off more older cows than we would have liked.

	Very easy to handle calves that have been weaned since January, also the fact that in the last two weeks they have been fed some hay has only made them even easier to handle.		
Handled With	Bikes , On foot , Vehicles		
Notable Traits	Traits 2 Head White Belly		
Assessor Comments	A small quality line of weaned heifers that are predominantly Angus with an infusion of Simmental. Vendor would normally retain these however the tight season forced them to keep only 13 for themselves to self replace. Please note that there are two however one in particular with white on the belly. In the same sale there is 39 steers off the same property. All these heifers are healthy and easy to handle. Would make very nice future breeders or fatten as a trade. Very nice cattle that come highly recommended.
