Assessor Comments
A neat line of the Hunter brothers March/April drop Grey Feeder steers. These calves are the tops of the drop of grey portion of calves. Weighing in at 400kg at the time of assessment, these calves would be suitable to any feedlot operation or to take through as grass fed bullocks. These calves are Greenhams Never ever accredited. Steers are sired by the Benle Angus bull, out of a fully black cow with 25% Arki Murray Grey blood. These steers are well weaned. Been grazing dry land lucerne & have been getting some pasture hay also. Highly recommend cattle
