Assessor Comments	Here are 16 Angus cows / heifers PTIC to Wallangra Angus bulls. There are 5 cows and 13 heifers in this mob. The cows / heifers are by Clunie Range and Ascot Angus bulls. These cows / heifers are on their 2nd calving. Cows / heifers are 4 to 5 months in calf. They have been joined over a 64 day period for a tight calving window. These cows / heifers are branded 1's so have plenty of breeding life left in them. Cows / Heifers are regularly handled and are in a rotational grazing program. Heifers are used to one wire electric fence setups. Cows worked well throughout yards and were a pleasure to handle. If you are looking for good young quiet Angus breeders than look no further than these. Please note one of these cows has a lump on her neck/head just below her left ear. Lump is soft. Potentially a grass seed in the lump. 2 cows have some fly bite marks. Also in this sale there are another lot of 3 Ultrablack PTIC Heifers and 6 Droughtmaster cross PTIC cows for sale on same property
