	I drafted these heifers through a pound, & they flowed calmly with no issue. They where then re-penned and brought back through the pound and race with no issues.

Assessor Comments	Buyers here's a very good line of heifers that will definitely add strength to your breeder herd. They are well grown and good types. The Schutt family have invested in good Santa sires for many years & these heifers are only being sold as they've missed out on any decent falls of rain. While I can't provide a vet certificate I can provide a detailed list with ear tags of each animal and its pregnancy level, which I believe is valuable. At testing on 22/1/25 they tested as follows- Less than 4 months- 22hd 4-6 months- 8 hd Greater than 6 months- 3 hd Given that the preg testing date is almost 2 months ago this puts these heifers well along in their pregnancy. These heifers will I my opinion be a sound investment and add value and strong genetic gain to your operations. I highly recommend these future breeders.
