Assessor Comments	A quality line of young 4 and 5 year old PTIC Angus Cows that are a foundation of Booroomooka, Texas and Wattletop Angus bloodlines. Cows are large frame & have been great consistent commercial breeders, Cows have been putting every thing into their calves that have just been weaned off thus presenting in their working clothes. Now back in calf these females are a perfect set and forget articles that have the added bounce of no sleepless nights when calving time comes around. Cows were joined to quality Booroomooka and Wattletop Angus bulls for 8 weeks and are due to calve from early August. These young cows are perfect replacements for an Angus program that will produce quality calves and have long breeding life ahead of them.
