Assessor Comments	An Quality line of EU Angus PTIC that are breeders cattle.. Heifers are well grown and have all the attributes you want in future breeders, softness, length and femininity. Heifers are bred from a foundation of quality Angus genetics including Wattle Top, Glen Morgan and Kilburnie Angus. Heifers were apart of a larger mob and are a genuine sale only due to being surplus to needs, Joined as apart of their normal program heifers will commence calving in Late July for 8 weeks. Heifers were joined to a Kilburnie & Highrent Angus bulls with high IMF indexing figures including IMF'S of 3.4 & 4.4 and low low birth weight figures of 2 & 2.7. Get above the game with quality Angus females that will bred on, Heifers that are not to be missed.
