Assessor Comments	Good quality 2nd and 3rd calvers PTIC to Angus bulls (mainly TeMania, some Lawsn). They are out of the renowned Burindi heard which produces top performing cattle year on year using the best TeMania and Lawson genetics. These young cows have all raised a calf and are high indexing females. There is the odd old eye scar deemed non-detrimental at assessment. They have had a tough few months and should power forward given the right conditions. Please note there is another 70 of these cattle in this sale as well as some older cows from the same mob.
