Handled With	Bikes , Dogs , Horses , On foot , Vehicles		
Assessor Comments	A good run of middle-aged cows PTIC to Angus bulls. They are out of the renowned Burindi heard which produces top performing cattle year on year using the best TeMania and Lawson genetics. These cows have raised a calf every year and are only being sold as their joining is slightly later than usual. They are high indexing females. They all have tidy udders. There is the odd old eye scar deemed non-detrimental at assessment. They have had a tough few months and should power forward given the right conditions. Please note there is another 37 of these cattle in this sale as well as some other younger and older cows from the same mob.
