Joining Details	Station Mated - Continuously Joined Bull Breed(s): Registered Angus Bull IDs: Stud Te Mania Bulls M1049 & M1056			
Preg Tested?	No, this lot was not pregnancy tested.			
Other Joining Details	Te Mania Angus bulls running with cows since calving, however continued joining advisable due to the predominantly young age of the calves.			
	Quality Grades		Store Condition	
	Very Good	100%	Fwd Store	26%
			Store	74%
Temperament	Yards		Crush	Paddock
	Quiet: 22 head		Quiet: 22 head	Quiet: 23 head
	Slightly Stirry: 1 head		Slightly Stirry: 1 head	
	Very quiet, easy to handle heifers overall. 1 heifer became unsettled when isolated in the lead up to the crush & whilst being mouthed, but calmed down immediately when returned to the mob.			
Handled With	Bikes , On foot , Vehicles			
Notable Traits	Traits 1 Head 1 calf treated with ORBENIN for minor pinkeye (see photos) 1 Head One cow with slight blue scarring in 1 eye (see photos) 3 Head Slight white on udder 1 Head Small lump on jaw of 1 steer calf (see photos)			
Assessor Comments	A nice line of well bred, station mated RENNYLEA Angus cow & calf units, on their 1st calf. These heifers are developing well, presenting in store, to forward store condition, with good frame & growth for age. Heifers are producing plenty of milk, which is contributing to the high growth rate for age of the marked & vaccinated RENNYLEA Angus sired calves at foot. They are displaying good conformation & were purchased from a breeder with a herd based on RENNYLEA Angus blood for years, with a focus on producing soft, easy doing females with high growth rates & excellent fertility. # Buyers note, 1 bonus calf due to twins. A great chance to secure quality young breeders in the prime of their lives, which have calved with ease to leading RENNYLEA Angus sires & a lifetime of production ahead of them. A sound opportunity to replace older breeders with young ones, at minimal extra cost, with supply likely to become increasingly hard to find should a seasonal break in the Autumn eventuate.
