Handled With	Quiet: 12 head		Quiet: 12 head	
	Beautifully quiet, easy to handle heifers.			
Notable Traits	Traits			
	1 Head Slight white on udder / underline			
Assessor Comments	A nice line of one-mark, beautifully quiet tempered, EAGLEHAWK blood Angus first calvers. These heifers are well developed, exhibiting good frame for age, with impressive carcass shape & producing plenty of milk, which is evident in the sappy Eaglehawk Angus sired calves at foot, which were marked & vaccinated at assessment (4 steers & 8 heifers). Heifers are presenting in very fresh, forward condition, with well developed, full udders & very good softness. Easy doing heifers, which were a pleasure to handle through the yards, due to their quiet nature. These heifers are demonstrating good maternal traits for their first time around, mothering up immediately when reunited with their calves after assessment, for photos in the paddock. # Note # Calves are mostly 2-6 weeks old, with 1 heavier, earlier drop, 12 week old heifer calf. A great opportunity to secure a top quality, one- mark line of young breeders with shapely young Angus calves at foot & a lifetime of production ahead of them.
