Assessor Comments	This is a tremendous draft of "Okeview" cows that still have plenty of life left in them as they are only rising 7yo. There is 150 in the mob to be sold as three even runs out the gate. Cows are PTIC to top quality "Yavenvale" bulls to calve 7th June for 8 weeks are in generally fat condition and wont take much looking after prior to calving. The Okeview cattle have a tremendous name in the Hereford world and have always focused on buying top end genetics with very good feedback on the performance of their cattle in the past. Anyone in looking for top of the range Herford cows PTIC need look no further than here these are your cows.
