Assessor Comments	A great opportunity to secure top quality Angus heifers with calves at foot. Heifers are bred direct off Table Top Angus stud, with calves at foot sired by Rennylea Angus bulls. Heifers are Medium to Large frame displaying plenty of length and depth, and are milking well presenting in healthy forward condition. A quality line of young females that would complement any commercial Angus herd. Note: 15 head PTIC, 3 head not detectable, still running with bull
