Assessor Comments	Vendor Bred PTIC Angus Heifers. These Heifers are July/August 23' drop, consisting of Rennylea and Lawson Angus bloodlines. Being joined to a Lawson Angus Bull VLY22T787 (Son of Hometown) from the 23/10/24 - 11/12/24, Heifers are due to calve end of July to mid September 2025. Heifers have received pre joining treatments of Multimin and AD&E in October. 100% Heifer Select Sire Verified, all being rated 3.5 Stars and above. Vendor had selected these heifers as tops of the drop and would typically be retained in the self replacing herd, however are being offered up for sale due to reduction in property size. These heifers present an opportunity to add quality genetics to an existing herd or provide an excellent start to any program. Please note 1 head has a slightly cloudy eye due to previous pinkeye, not detrimental to it's vision.
