Assessor Comments	Buyers a great opportunity to secure a lightweight line of weaned Angus heifers, bred out of Heifers purchased from Bowen Angus Stud in 2024 and all sired by Bowen Angus Stud sires. These heifers predominately show good bone and depth of breeding to be an asset to most breeding herds alternatively would be ideal to take through to Premium Angus feeder weights. Heifers present in good store condition and represent potential for good compensatory gains due to the fact they have had a week of walking around holding paddocks in the wet weather .Please note one heifer had some white on undercarriage and fifteen with slight blight scarring in one eye and two with blight scarring in both eyes (all appear to still have good vision).Vendor has a light two decks of brothers this sale
