Assessor Comments	Buyers a great opportunity to secure a light 2 deck line of lightweight store condition weaned Angus strs representing good compensatory gains due to walking wet holding paddocks since weaning. Steers are out of young cows purchased from Bowen Angus stud in 2024 and sired by Bowen Angus stud sires and predominately show the length ,bone and depth of breeding to grow out to the Lucrative Angus heavy feeder market or to take through to Premium grassfed bullocks suiting all pasture fed programme's with no grain or antibiotics in their life. Please note several steers had old blight scarring in one eye not considered detrimental.
