Handled With	Bikes , Dogs , Vehicles
Assessor Comments	A good line of Brangus cross steers, averaging 279kg at assessment. Steers are still following their mothers around, but need to be moved on. Sired by Brangus, bulls, Angus and black Simmental bulls, out of Angus and Brangus Cross cows, these steers would suit a background operation. Steers are renowned performers having won champion pens at local steer and bullock shows. Steers are located on a tick infested property, however have been treated at assessment with dectomax injectable and will be cleared to go from Monday 7th April to Wednesday the 9th of April. Same vendor has a brother lot offered in same sale at a separate property.
