Assessor Comments	48 quality steers bred from large framed 'MYANGA' blood cows. Averaging 367.7 kg at assessment these steers show good growth for age and plenty of constitution. They are backed with genetics with vendor purchasing the top sires annually at 'MYANGA' Angus bull sale, and this is proven through the shape and quality of these calves. They were good to draft and run through the crush for weighing and will benefit from further handling in the yards. They were weaned on the 10/3 -17/3 and are doing well on improved pastures since weaning. These calves will power ahead on crop or feed to large bullocks give the opportunity. Buy with confidence.
