Heifers have been well handled throughout weaning process, as well as regular feeding. Making them generally very quiet to handle in and around the yards. They were in the yards the day before for weighing and were a little yard sour at times, just a bit stubborn in the force and pushy in the race. Once out in the paddock, they were all much more settled & quiet, & easy to walk around on foot for photos/videos.

Assessor Comments

Complete Spring Drop - None Retained. These are healthy, bright coated, store condition young heifers, all very well bred, carrying the Rennyalea & Ardrossan Angus genetics. Heifers that will have the scope for any market, being out of large framed cows, but ideally make a supermarket body in the Spring, being only light 2 score condition and having some good early compensatory weight gain to take advantage of on delivery! 100% Grass Fed, Antibiotic Free. Buyers please Note. Vendor is offering 3 lots in this sale - another lot of the lighter sisters, and a small lot of steers.
