Assessor Comments	A good run of middle-aged cows PTIC to Angus bulls. They are out of the renowned Burindi heard which produces top performing cattle year on year using the best TeMania and Lawson genetics. These cows have raised a calf every year and are only being sold as their joining is slightly later than usual. These cows are all high indexing. They all have tidy udders. There are a few old eye scars deemed non-detrimental at assessment. They have had a tough few months and should power forward given the right conditions. Please note there is another 36 of these cattle in this sale as well as some other younger and older cows from the same mob.
