Assessor Comments	35 x PTIC mixed age Angus and Angus/Shorthorn cows 6-7 months in calf to Angus Bulls. Sept/Oct joining. Averaging 655.9 kg at assessment. Have been grazing on native pastures, in forward store to prime condition. These cows show good frame and bone and have done a great job on their last calves. All cows were mouthed at assessment, with all having 8 teeth, and a small percentage showing wear and gaps. This is a good opportunity to secure a line of females with all of the work done and take advantage of the rising cattle market. Buyer's note: 1 cow noticed to have a lump on jaw, not considered detrimental (as seen in photos).
