Handled With	Bikes , On foot , Vehicles		
Notable Traits	Traits		
	3 Head White on udder/ flank		
Assessor Comments	Outstanding line of middle age PTIC Rennylea Angus cows in calf to very good quality Rennylea Bulls (links attached) to calve in a tight pattern commencing early September. These cows were synchronised in an AI program and conceived in the second cycle of the backup period. The Skinners are very passionate Angus breeders and have been using AI throughout the herd for the past 8 years to turbo charge genetic gain. Selection pressure is placed on every female with a hard-line approach to culling on visual, structural soundness, temperament as well as genomics (through heifer select) in the last 4 years. Steers from this herd have won multiple awards including most recently coming first at Beef 2024 National Beef Carcase Competition. Only being sold due to having sufficient numbers and very high conception rates. Proven breeders that offer an outstanding opportunity for someone to purchase females from an elite breeding program. Please note; vendor also has another two lots in this sale.		
Assessor	Tim King (Level 1 Accredited) Phone: 0437 751 322
