Assessor Comments	A quiet run of EU and grassfed accredited PTIC Angus heifers. Reluctant sale due to ongoing dry conditions. These heifers were a real pleasure to assess both in the yards and crush. Potentially by influential proven AI sires Rennylea L508 or Chiltern Park Moe or by back up bulls - Glenruben Angus bulls (the AI portion weren't identified at calf marking) .These heifers are an excellent addition to anyones breeding herd. Their weights - 391 - 445 kg full, to Ave - 438kg full at assessment. NOTE A small % of heifers have the odd wart on their head and neck. NOTE - There is 1 black baldy heifers in this line - minimum 4th Generation Angus, if successful purchaser wishes they can be removed her from this line.										
Assessor	Corey Parker (Level 1 Accredited)
