Assessor Comments	Fantastic opportunity to purchase 230 Primeline Ewes averaging 52kg at assessment. Sheep have been scanned in lamb at 130% to the Primeline ram, due to commence lambing mid June-July. These 2 year old ewes are proven breeders having had a lamb in the spring of 2024. Sheep have had all the health treatments and are in strong healthy condition considering the extremely tight conditions they have endured over the past 12 months. Don't miss the chance to put together a quality line of ewes with the confidence of their breeding ability and A Grade genetics.
