Assessor Comments	This line of Ewe Lambs on offer show some quality traits of the Ultra White breed, with this line only being selected for sale due to weight - not type, as their older siblings have already been given access to rams. There are some clean shedders in the line, with the majority still holding onto their wool on their top line & sides, but have very clean bellies & breeches. With some in forward condition to the majority being in good condition, these young future breeders should be ready to access the rams of your choice for a spring drop of lambs.
