	Heifers gathered well from the paddock with ute and dogs, in yards they did stir and rush little under pressure but settled when walked and were good to handle. Weighing in the crush did agitate a few but they settled once back in the yard.							
Handled With	Dogs , On foot , Vehicles							
Assessor Comments	These are the top annual draft of “The Rocks” heifer calves being offered, selected for the larger frame size and true to type. These heifers all show strong Angus attributes and would suit any herd as replacements or would grow out to very good heavy carcass weights.
