	Quiet: 9 head		Quiet: 9 head		Temperament not assessed in Paddock			
All steers were a pleasure to handle throughout the assessment process								

Handled With	Bikes , On foot , Vehicles
Notable Traits	Traits 2 Head Ringworm
Assessor Comments	Buyers the second line of well-bred Shorthorn steer weaners averaging 231kg. The last few years the vendor has spent a lot of money on genetics which is starting to show with the style and type of these cattle! These are a very nice, even line with only 42kgs from lightest to heaviest. They are of good medium to large frame with length, shape, -depth, style and type. Going forward, these steers should continue to grow out into well finished medium to heavyweight yearlings suitable for all grassfed markets being Greenhams NE, JBS FA and NG/NA Note: Two steers showing slight signs of ringworm, this is not seen as detrimental Note: Vendor has multiple lines in this sale
Assessor	Reg Woodiwiss (Level 1 Accredited)
