Heifers were very easily assessed and handled. When isolated 2 heifers become slightly stirred up. They will be handled and tailed out twice daily up until delivery. Expected all heifers to be quiet by delivery. Considering they had just been weaned all heifers were a pleasure to handle.

| Assessor Comments      | Buyers here presents a small but very neat line of Speckle infused heifers. These heifers are out of a very good, quality large frame cow herd by top Quality Celamba Speckle Park Bulls. These heifers show plenty of shape and muscle at an early age and will grow out to be big framed heavy cows. The heifers were in the process of being weaned at assessment and will continue to be handled daily and fed top quality oaten hay. Ideal for a small operation wanting to step in to Speckle Park genetics. A great line of heifers not to be missed. |
