Notable Traits	Traits 18 Head Bos Indicus content		
Assessor Comments	Here presents a nice line of Angus & Angus X Heifers. Exactly 50% of these Heifers were vendor bred, and vendor has been buying top genetics from Clunie Range and Franklin Angus stud to use within his herd. The odd cow within his herd has a slight Santa influence hence the Bos Indicus content in a small portion. The purchased Heifers are genuine Angus with them being Texas, Clunie Range & Millah Murrah bloodline. These Heifers have performed exceptional for previous buyers and would suit any operation whether it be joining to the bull of your choice or feeding to export weights. Heifers have only ever grazed on grass and vendor happy to sign grass dec. Buyers, please note six heifers have white on udder or navel and four heifers had old pinkeye scarring but doesn't affect their sight in any way. Buyers, please also note heifers were treated on day of assessment for Buffalo fly. Buy with confidence.
