1 Head	1 steer has white belly

Assessor Comments	A small line of vendor bred Angus x Angus weaned steers, 8-10 months of age. Steers present in strong store condition. Steers have been running on light native unimproved country and will condition up quickly given access to improved nutrition. Ideal steers to put on crop and fatten. Grass fed and Antibiotic free. Take advantage of the good season and the compensatory growth these steers could offer. Vendor has another lot of older steers in the same sale. PLEASE NOTE: 1 steer has white on belly. Steers show some signs of rubbing due to buffalo fly. Delivery date 18-24th April to allow truck access to dry out.
