Notable Traits	Traits 2 Head 2 Angus x Angus heifers have small amount of white on belly (behind navel) 2 Head 2 Angus X heifers white on face and/or belly (see media)
Assessor Comments	A quality line of NSM Angus-sired feeder heifers. Heifers are estimated to be 15-18 months of age and present in strong forward store condition. Heifers were a pleasure to handle in the yards with their temperament a feature. These heifers would make ideal future breeders or could be put on crop to grow out to feeder weights or fattened for the domestic trade. Take advantage of the good season and the opportunities these heifers offer. NOTE: Heifers show some signs of rubbing from buffalo fly (see media)
