Handled With			
Assessor Comments	A nice line of EU angus heifers that the vendor had selected to keep as replacements. Vendor has purchased quality Angus bulls from reputable Angus studs including Booroomooka, Booragul & Te Mania in a self replacing herd. Heifers are preg tested for an 8 week Calving to LBW (See EBVS in additional joining detail) Booroomooka & Booragul Angus bulls. Heifers present in ideal condition to calve down in the coming months as they are not carrying a large amount of condition. Generally all heifers are true to type for the breed and given the right opportunity should grow into very nice females in time. Vendor has another 58 heifers offered in this sale the same drop off another property. Odd blue eye scarring observed at assessment. Small number of heifers carry tan colour over the shoulder as a result of fly in the summer
