Assessor Comments	10 very quiet young EU Angus cows pregnancy tested in calf to a Ben Nevis Angus Bull. The cows were an absolute pleasure to handle while assessing . These females are currently running on a property that is predominantly a sheep operation on lighter granite country. The mothers of these cows were purchased Emu Holes cows and are also offered in this sale as the vendor is dispersing. The quality of these cows will offer compensatory weight gains given the opportunity. A good 3 in 1 unit with potential for the purchaser to increase in herd size or trade through the units. NB. The first video shows ALL CALVES offered in the other cow/calf lot in this sale and also this lot. Mothering will take place at delivery. The vendor has since taken a video of the calves that are at the foot of these cows and it has been loaded as the second video. Buyers please note - The vendor has 3 other lots in this sale. Buyers please note - Photos and notable traits to form part of description.
