	Cattle moved well throughout the yards under a calm environment. All cattle were mouthed at assessment whereby the odd cow showed discomfort when doing so however settled upon joining back into the group. Cows moved well with limited pressure needing to be applied.		
	Bikes , Dogs , Horses , On foot , Vehicles		
	Buyers, on offer is a good line of 42 PTIC 5-8 YO Reiland Bld Cows. Cows present in mostly store to forward-store condition after just having their calves weaned off 5 days prior to assessment. Cows display a large frame. Cows are preg-tested in calf to a Burbong Angus Bull set to commence calving from 10th August for 7 weeks. Cows represent a genuine sale due to dry seasonal conditions and the vendor having to completely destock their property. All cows were mouthed at assessment with 3 cows missing 1 tooth with very sound remaining teeth and another 3 cows with teeth starting to show signs of wearing. The remaining 36 were all deemed to have sound, healthy mouths. Buyers, please note the odd cow displays eye cloudiness not deterring their vision and please refer to temperament comments.
