Assessor Comments	Buyers, on offer is a neat line of 40 Cows PTIC to their third calf. Cows present in store to forward/store condition after just having their calves weaned off 5 days prior to assessment. These young cows display all the attributes of quality breeding, showing frame, depth and muscle that will continue to develop into medium-large frame cows. Cows are PTIC to a Hazeldean Bld Angus Bull for the first 4 weeks then backed up by a Bendoc Park Bld Poll Hereford Bull for the remaining 3 weeks. Please note, most cows are likely to be in calve to the Angus bull due to getting in calf within the first cycle of joining. Cows are set to commence calving from August 3. Excellent young cows to calve down or add on to an existing herd.												
Assessor	Luke Corcoran (Level 3 Accredited)
