	Heifers were good to handle and work through the yards with the odd heifer becoming unsettle whilst weighing however settled once back in the mob. Heifers did move quickly through gateways and will require settling into new environment before letting out of yards.

Assessor Comments	Buyers an excellent opportunity presents itself to purchase a line of 38 EU ACCREDITED vendor bred Angus and Hereford infused females. The Nixon family is a name synonymous in the Hereford breed and recently have been purchasing top end Angus bulls to add to their program. This group of heifers show all signs to make ideal females to background out to heavier joining or feeder weights, showing femininity and sound conformation. Presented in store condition this group will go forward quickly given the chance on grass, crop or grain. Vendors are happy to sign grass fed declaration to state heifers have been fed no grain in their lives. Please see photos and videos for further satisfaction.
