	Steers worked through the yards well given that they were only weaned off mothers & trucked the day before with signs of being unsettled in new environment. Generally these cattle have great temperament & settle well post weaning.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	77 good quality, vendor bred Angus steers in the process of being weaned & ready to go. These steers in the past have been sold to back grounders , feedlots & grass finishers & have performed extremely well in all cases. Please note 8 steers showing slight pink eye scarring one eye, not detrimental to sight.
