	Quiet: 52 head Slightly Stirry: 2 head	Quiet: 48 head Slightly Stirry: 6 head	Temperament not assessed in Paddock
	The heifers moved well through a good yard setup, a few got twitchy and agitated in the confines of the crush, and the few that were mouthed let out a bellow but settled on rejoining the mob.		
Handled With	Bikes , Horses , Vehicles		
Assessor Comments	This mob of medium framed heifers would suit anywhere with a bit of room and feed. Run on native pastures in a big operation, they have the breeding and wherewithal to put on a lot of weight given the right conditions and would grow out to fatten or join a breeding operation. The first and last heifers, and one at random in the middle were mouthed, and all found to be solid milk teeth.
