The steers moved well through a good yard setup, a few got twitchy and agitated in the confines of the crush. Quiet to move through in the yards.

Assessor Comments	This mob of medium framed steers would suit anywhere with a bit of room and feed. Yard weaned earlier than usual, they have the breeding and wherewithal to put on a lot of weight given the right conditions and would grow out to feeder weights. The steers had at least 4km to walk into the yards and emptied out quite a bit on the way. One steer was observed to have a small wart cluster and another a patch of ringworm on his face.
