	Other Treatment	13/01/2025	De-Stress
Eligibilities	PCAS Eligible		
Temperament	Yards	Crush	Paddock

	Quiet: 19 head Slightly Stirry: 8 head Stirry: 1 head	Quiet: 19 head Slightly Stirry: 7 head Stirry: 2 head	Temperament not assessed in Paddock
	Generally the cattle were good to handle. Vendor has made concerted effort to manage cattle calmly through weaning and health treatments, particularly through using De-Stress in water source. Most steers handled assessment well with approx 2 head showing stirriness in tight confines of weigh cradle. Have at times in the past displayed some run when moving yard to yard but previous purchasers have suggested steers settle well. However, during photographing of steers they looked very relaxed.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	A well bred draft of weaner Angus steers. The Bellevue herd is 100% Weeran blood with no expense spared on genetics with a focus on above average growth and carcase attributes. Presenting in store condition, these cattle have proven record of performance in the feedlot and on grass. Previous purchaser feedback has been very positive. Cattle are PCAS eligible & Never Ever Accredited. Steers have had full animal health treatments in the previous three months either side of weaning. An opportunity to acquire impeccably bred Angus steers to take on to any market (grain or grass) (Vendor also offers 82 Angus heifers this sale, same drop)		
Assessor	Nick Maddison (Level 1 Accredited)		
Delivery Period	18/04/2025 to 24/04/2025 (7 days)
