Assessor Comments	A well-bred quality line of 74 Black Angus March/April 2024 drop heifers. With frame on their side these heifers will move forward quickly on feed. Heifers present in fresh forward store to store condition. They are in ideal condition for a feedlot operation, or can also be purchased as a future line of breeders. They are Never Ever accredited, and PCAS eligible. There has been a small tail drafted out of the bottom end. Please note: there is one Red Angus heifer in the mob. They are yard weaned , and have been drenched and vaccinated. One heifer has a white underbelly, and one showing signs of old pinkeye scarring. This vendor also has a line of 69 heifers to be offered in the same sale which are running on another property. Put both lots together to make up a road-train.
