Assessor Comments	14 very quiet Angus cows pregnancy tested in calf to a Ben Nevis Angus Bull. The cows were an absolute pleasure to handle while assessing . These cows are purchased 6 year old Emu Holes females. These females are currently running on a property that is predominantly a sheep operation on lighter granite country. The quality of these cows will offer compensatory weight gains given the opportunity. A good 3 in 1 unit with potential for the purchaser to increase in herd size or trade through the units. NB. The video shows ALL CALVES offered in the other cow/calf lot in this sale and also this lot. Mothering will take place at delivery. Buyers please note - Video of calves shows 24 calves, 10 of these have since been sold with a previous listing. 14 remaining calves will be mothered up at delivery. Buyers please note - The vendor has 3 other lots in this sale. Buyers please note - Photos and notable traits to form part of description.
