Assessor Comments
A very quiet mob of Santa Angus X heifers and Calves. These heifers are PTIC to a LBW Bannaby Angus Rocket Man son U21.All of these Females were pregnancy tested 2- 5 months in calf by Vet Jack Holman. Calves are by a Heavy muscled Santa Gertrudis bull and have been marked and mothered. These young females will present in forward store to prime condition and are doing an excellent job raising their calves. With the temperament of these cattle they would make an ideal inclusion to any herd no matter the scale. A nice line of Santa Angus X heifers with Santa calves in calf to a top quality sire with plenty of hybrid vigour
