Comment on Fat Score 1 Cattle	Cows stand in predominately strong store condition.
Vendor Bred	Yes
Stock History	Very good local herd. Bundarbo use a combination of AI and natural joining techniques. Majority of these cows are vendor bred(76%). Balance are bred by Romani Past co and the Johns family at Pakenham which were both purchased as PTIC hfrs in 2021
Lifetime Traceable	Unknown
Bloodlines	Vendor bred and Romani Past Co females are Hazledean blood. The Johns family females are Glen Avon Blood
Grazing Conditions	Minimal pasture. Cattle receiving silage 3 times a week. Returned same
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives

2 Head	Slightly longer back toe (Not detrimental)
1 Head	White belly forward of navel

Assessor Comments	Good opportunity to acquire a well bred line of PTIC Angus females offered for genuine sale due current seasonal conditions. Cows represent a line of females which have all been joined to Hazledean bulls. They stand in strong store condition through to forward store condition in the lead end. They are generally larger framed females and all recently had calves weaned. Total of 91 cows offered in two groups. Cows are the product of a tough spring/summer though have carried themselves well through this time with a calf at foot. Plenty of upside to be had in these cows pre calve. Bundarbo progeny are well sought after amongst previous purchasers and these cows off an excellent opportunity to prospective purchasers. Please view video to appreciate the quality and upside of these females on offer. If required at delivery cows will be delivered in equal break up of age as best as possible.
