Preg Tested?	Yes, this lot was pregnancy tested, by Livestock Logic (Vet) on 03/03/2025.

29 Head (100%) PTIC, from 3 to 6 months (at time of assessment 14/04/2025). Certificate Available.			
Temperament	Yards	Crush	Paddock
	Quiet: 26 head Slightly Stirry: 3 head	Quiet: 27 head Slightly Stirry: 2 head	Temperament not assessed in Paddock
	Cows were very good to draft and handle and would be considered to have a good temperament. They moved through yards nicely and photos & videoing was no issue.		
Handled With	Bikes , Horses , On foot , Vehicles		
Assessor Comments	Offering a nicely presented draft of young PTIC Black Baldy cows. Acquired as heifers and bred out of a quality western district herd they present in ideal order being principally forward store to forward condition. They are well bred, showing the attributes of a medium to large frame cow, with good bone. They've been PTIC to top quality Bowmont Angus bulls to commence calving late July for 11 weeks. A nice line of young PTIC cows, rising third calvers, they are a genuine, somewhat regretful sale due the continued dry conditions through the Western District. With vendor offering a total of 80 quality PTIC Black Baldy cows this sale, it presents a great opportunity to acquire a hard article to find, in the prime of their life.
