Assessor Comments	Top of the drop pure TE MANIA blood Angus weaner steers. Weighed into a line of 275-380kgs, to avg 330kgs weighed full at assessment. Yard weaned, vaccinated & drenched, settled onto grazing crops, These steers represent a very even line of genuine vendor bred calves that are ready to perform. Steers show a wonderful depth, broad top line and lovely softness that will ensure performance given the correct nutrition. Vendor meticulously selects high indexing TE MANIA bulls each year, with emphasis on growth, IMF & carcass traits to carry through to high end feeding programs. Bulls Avg: 89 400day, 119 600day, 5.46 IMF to avg 20k across all Bulls purchased. Steers are usually retained for long feed programs, with tight seasonal conditions, the opportunity to secure top quality steers is here. Assessor highly recommends these steers. Please note: traits - ringworm scarring
