Steers were mostly well handled, the odd steer was unsettled when being weighed and had a little bit of run when moving through gates. Cattle handled well when in larger yard.

Assessor Comments Te Mania blood Angus steers weighing 373kg after a 3-hour curfew (322-474kg) with a large tail being removed from the line. These steers have been running on agistment at Young and have improved dramatically since being sent at the end of last year after a failed spring in the Colac region. Good quality steers to turnover quickly as heavy feeders/ kill catte or to go straight onto feed. Please note; vendor also has another line of 36 NSM heifers in this sale.
