All very well behaved throughout assessment. Handled solely in the backyards/force/race by a young work placement			

student with no hassles. All led up the race and were mostly well behaved in the crush. A little bit of anxiety in some as they'd only come home from agistment a week prior and had been through for drenching, listed above as slightly stirry. Blocked up well in the large holding area with just 1 Ute, and stood sensibly for photos. Still young cattle, but very well behaved.

Assessor Comments

Smart, fresh line of Pure Rennylea Angus Blood Steers. Mothers purchased as PTIC females off an in-house client, being the well renowned Khancoban Station, who have been using pure Rennylea Angus sires for a numbers of years, always focusing on positive IMF (+3), high 400 day growth & high yielding carcass performance EBV's. Very nice line of steers that have had the start to set them up, and the genetics to keep them going forward in any direction. Already having a couple of truck rides under their belt with going to/coming home from Agistment, and handling the ordeal like seasoned professionals, never taking a backward step on arrival. Equipped with their first shot of Bovillis, a Multimin & their 5in1 Booster, this is a line fresh, easy steers ready to tip straight out in to paddock on arrival.
